## Metallurgical Engineering Awards

METALLURGICAL ENGINEERING  
AWARDS

### CALL FOR PROFILE – METALLURGICAL ENGINEERING AWARDS

**About Awards:** ScienceFather takes the privilege to awarding the Industries, Academicians, Researchers, Scientist, and Regulators from Science, Health and Medical fields across the globe to its International Events. The Metallurgical Engineering Awards is an annual gathering. This Event is a unique international platform that's a meeting of all Researchers. We look forward to personally welcoming all the award winners.

**Objectives:** The Metallurgical Engineering Awards Events is awarding high quality Researchers in different subfields. The purpose of award ceremonies and assemblies is to celebrate researcher achievements and motivate them to continue on their path. The Good researchers are more motivated to succeed in their research field. People want to be respected and valued by others for their contribution. Offer the opportunity to be updated on the latest research outputs on several topics. Organize specific workshops around the most attractive and current issues. Gather worldwide experts as Event speakers.

**Key Features and:** Excellent Venue | Inspiring Speakers | Certificate | Medal | Memento | Stage Photograph | Awardees listed on website.

**Award Categories:** Young Scientist Award | Best Researcher Award | Outstanding Scientist Award | Lifetime Achievement Award | Best Paper Award | Women Researcher Award | Best Faculty Award | Excellence in Innovation Award | Best Innovation Award | Best Scholar Award | Best Metallurgical Engineering Award | Metallurgical Innovation Award | Materials Science Achievement Award | Excellence in Metallurgy

**Topics of Award Subjects include, but are not limited to:** Alloy Development | Nanostructured Materials | Sustainable Metallurgical Processes | Metal Additive Manufacturing | Extractive Metallurgy | Composite Materials | Nano Materials | Physical Metallurgy | Mechanical Metallurgy | Corrosion Engineering | Powder Metallurgy | Metal Recycling | Computational Metallurgy | Industrial Metallurgy | Thermomechanical Processing | Ferrous Metallurgy | Non-Ferrous Metals | Materials Characterization | Welding Metallurgy | Casting Processes | Surface Engineering | Heat Treatment | Biomaterials Engineering | Advanced Coatings | Metallurgical Thermodynamics | Smart Materials | Structural Alloys | Metallurgical Failure Analysis | Ferrous production technology | Foundry Technology | x-ray diffraction | Transport phenomena | phase transformation | Mechanical behavior of materials | Steel production | Mineral processing | Manufacturing process | Fracture Mechanics | Materials science
